AVAILABLE COURSES

All Courses are ASRT Approved for ARRT Category A Credits

AT009 HIV and AIDS

Course: \$30.00 Test Only: \$20.00

2.0 Category A Credits

This course will help you better understand the history, pathology and steps being taken to beat the HIV and AIDS pandemic.

AT010-2 Blueprints Radiology •

Course \$65.00 Test Only: \$45.00

8.5 Category A Credits

This course will help you stay up to date and constantly review the rapid advancements in radiologic imaging.

AT025 Practical Digital Mammography •

Course: \$80.00 Test Only: \$45.00

5.0 Category A Credits

This course will show you difficult mammographic findings and provide recommendations about the techniques for localizing each finding.

AT022 Breast Imaging •

Course: \$80.00 Test Only: \$50.00

10.0 Category A Credits

In the growing world of mammography it is important to bring to the table experience and understanding for the patient. It is also crucial to obtain accurate images and recognize the warning signs of breast cancer.

AT001-2 Trauma and Mobile •

Course: 65.00 Test Only: \$45.00

10.0 Category A Credits

This course is to help you develop a better understanding of mobile radiography of the trauma patient.

AT014 Human Brain

Course: \$65.00 Test Only: \$50.00

10.0 Category A Credits

The head is one of the most commonly radiographed parts of the body. This course will give you a comprehensive look at the brain from infancy through full development.

AT026-5 Radiographic Pathology •

Course: \$85.00 Test Only: \$45.00

13.0 Category A Credits

This course provides in-depth, comprehensive coverage of the radiographic appearance and origins of disease and injury.

AT016 Physiology Coloring Workbook

Course: \$65.00 Test Only: \$45.00

11.0 Category A Credits

From the popular Princeton Review series, Physiology Coloring Workbook helps you understand the basics of physiology.

AT013-2 Review of Radiologic

Physics •

Course \$80.00 Test Only: \$50.00

11.5 Category A Credits

This course offers a comprehensive approach to teaching you the fundamentals of the science behind your profession.

AT023-2 Pharmacology & Drug

Administration for Imaging •

Course: \$80.00 Test Only: \$45.00

12.0 Category A Credits

This course provides introductory material on pharmacological nomenclature, drug classifications, and drugs used in imaging.

AT020-2 Anatomy and Physiology

Made Incredibly Easy

Test Only: \$45.00

12.5 Category A Credits

This course is to help you develop a better understanding of the human anatomy and physiology.

AT007-2 Anatomy Coloring

Workbook

Course: \$80.00 Test Only: \$50.00

15.0 Category A Credits

From the Princeton Review series, this book will help you develop a better understanding of the human anatomy by using electronically created diagrams.

AT011-5 Radiation Protection •

Course: \$90.00 Test Only: \$50.00

15.0 Category A Credits

This course is geared toward helping you better understand the various types of exposure and how to minimize the inherent risks.

AT024 Digital Radiography & PACS •

Course: \$75.00 Test Only: \$45.00

9.0 Category A Credits

It explores the differences between conventional and digital imaging systems and how computed and digital radiography systems fit within the radiology department.

AT006 Radiographic and

Angiographic Procedures •

Course: \$85.00 Test Only: \$50.00

16.0 Category A Credits

This course will give you a firm grasp on the technological advancements of radiographic imaging and angiography and provide you with the edge needed to understand new technologies.

AT027 HIV/AIDS: Introduction

Course: \$50.00 Test Only: \$30.00

5.5 Category A Credits

HIV and AIDS is a growing worldwide epidemic. As a healthcare professional, you are at a greater risk of exposure and infection.

AT017-3 Quality Management in the Imaging Sciences •

Course: \$90.00 Test Only \$50.00

17.0 Category A Credits

This course will provide you with the knowledge to organize and successfully implement a quality control program and instruct you on basic quality control procedures and time frames.

AT004-4 Diseases of the Human Body

Course: \$85.00 Test Only: \$50.00

18.0 Category A Credits

The purpose of this course is to help you develop a better understanding of the diseases and the disease processes of the human body.

AT008-2 Physiology Coloring Book

Course: \$70.00 Test Only: \$50.00

21.0 Category A Credits

This course will help you to have a firm basic understanding of physiology that will allow you to understand what is going on inside of your patients.

AT002-3 Anatomy Coloring Book

Course: \$92.50 Test Only: \$70.00

22.0 Category A Credits

Being well versed in basic terminology and human anatomy can help you become more accurate and efficient in your everyday roll as a imaging professional.

AT003-5 Essentials of Anatomy and Physiology

Course: \$105.00 Test Only: \$75.00

32.0 Category A Credits

Essentials of Anatomy and Physiology will help you learn about body structure and function.

AT015-2 Radiology 101 •

Course: \$95.00 Test Only: \$50.00

15.5 Category A Credits

This course provides a good grasp of procedures, indications, anatomy and physiology. This course takes a basic look at modalities used today without plunging you into the science behind the machines.
